

**TERMS OF USE AND CONFIDENTIALITY POLICY FOR BESTHOLIDAY-
INROMANIA.COM - OWNER MIVAS VIP SERVICES SRL CIF 31417050
J40/3900/2013, Currently knowns as "WEBSITE" or "SITE".**

These site use their own cookies, but also from other parts to provide their visitors a better navigating experience and services adapted to each needs and interest. What is a "cookie"? According to National Authority of Surveillance for Processing Personal Data, an "Internet Cookie" (term also known as "browser cookie" or "HTTP cookie" or just "cookie") is a small size file, made from letters and figures, which will be kept on the computer, mobile terminal or other devices of an user from where the internet is accessed.

Cookie is installed by public request sent from a webserver to a browser (e.g.: Internet Explorer, Chrome, Mozilla) and is completely "passive" (it does not contain software programs, viruses or spyware and it cannot access information on the user's hard-disk). In what is called "web 2.0", "cookies" play an important role by facilitating access and providing multiple services to the user while internet, such as:

- Personalizing certain settings such as: the language used while visiting a site, the currency of certain prices and costs, keeping the options for certain products (sizes, other details etc.) in the shopping basket (and memorizing these options) –thus generating the flexibility of the "shopping basket" (the access of old choices by clicking "back" and "forward" button)
- Cookies provide the owners of sites a valuable feedback regarding the way sites are used by their users, so they can make them even more efficient and easy to access
- They allow multimedia app or other types form other sites to be included in a certain site to create a more valuable, useful and pleasant navigating experience
- They improve the efficiency of online advertisement

You can find out more about cookies accessing <https://cookies.apti.ro/>

Types of cookies used on our site:

There are two types of cookies:

1. OWN COOKIES, INDISPENSABLE, such as session cookies – these are temporarily stocked in web browser cookie file so this can memorize until the user gets out from that web-site or closes the window of the browser. They help the user to navigate on the site and they don't provide any personal information.
2. COOKIES FORM OTHERS. Certain sections of content on our site can be provided using the help of others/suppliers, e.g. a video from YouTube, buttons of social networks etc. These different other parts can also send cookies using the site and they are called "third party cookies" because they are not placed by the owner of that website. Third party providers also must follow the current law and the owner of the site's confidentiality policies.

On the other hand, besides the "session" cookies described above, one can also find the persisting cookies. These are stocked on the hard-drive of a computer or a device (usually they depend on the default life expectancy of a cookie). The persisting cookies also include those placed from a different website that the one the user is visiting on that certain moment.

HERE IT A IS A LIST:

Performance cookies. This type of cookies saves the user preferences on this site, so one doesn't need setting them each visit of the site. Examples:

- settings of the volume for the video player
- video streaming speed compatible with the browser
- it keeps the type of the device used for the navigation (mobile or desktop) and serves the user the optimized pages for the specific used device.

- etc.

So, this cookie keeps the preferences of the browser, doesn't know and doesn't disclose personal data of the user.

Cookies for analysis. Each time a user visits this site, the analysis soft provided by a third party - Google Analytics, generates an analysis cookie of the user. This cookie tells us if you have visited this site before. The browser will tell us if you have this cookie and if not, we will generate one. This allows monitoring single visiting users and how often the visit. Not having a subscription, this cookie cannot be used to identify individuals, they are used only for statistical purposes. For more details, please read the confidentiality policies of Google Inc -

<https://policies.google.com/technologies/partnersites>

Cookies that belong to Facebook. Our site is connected to Facebook through buttons "LIKE" and "SHARE", and also by inserting in site the feed from our Facebook pages. Thus Facebook generates its own cookies, inactive and harmless as long as you don't interfere with the functions "Like", "Share" that belong to Facebook. Using these functions, Facebook will recognize you as its own user and will know about you what you told Facebook when you activated an account on this social network. We recommend you to read the confidentiality policies of Facebook for more details regarding how Facebook uses your personal data

Advices for a safe and responsible browsing, based on cookies.

Due to their flexibility and to the fact that most of the visited and the biggest sites use cookies, these are almost inevitable. By disabling them, the user will not get the access to the most known and used sites such as YouTube, Gmail, Yahoo and others.

Here there are few advices that can assure you a safely browse, but also with the help of cookies:

- Customize your browser settings regarding cookies to reflect a comfortable level of security about using cookies.
- If you don't mind cookies and you are the only person using that computer, you can set long expiring terms of stocking browsing history and access personal data.
- If you share the access of a computer, you can consider to set the browser to delete the personal browsing data each time you shut the browser. This is an option to access the sites that place cookies and to delete any visiting information when the browsing session is closed
- Constantly install and upgrade antispyware apps.

Most of the detecting and preventing spyware apps include detecting site attacks. Thus, they prevent the browser to access websites that can exploit the browser vulnerabilities or to download dangerous software.

How can I stop the cookies?

Cookies can be stopped, but disabling them can make the browsing slower on certain sites. Each browser has the possibility that from settings (or options) you can stop the cookies.
